

# Vishnu Chaurasiya

Full Stack Developer | MERN Stack Developer | Software Engineer  
Gorakhpur, Uttar Pradesh, India | +91-7991510913 | vishnuchaurasiya1101@gmail.com  
LinkedIn | GitHub | LeetCode | HackerRank

## Professional Summary

Results-driven Full Stack Developer with 2+ years of experience designing, developing, testing, debugging, and optimizing production-ready web applications using React.js, Node.js, Express.js, MongoDB, MySQL, JavaScript, and TypeScript. Developed and integrated 25+ RESTful APIs supporting 2,000+ active users, improved API response time by 40%, and increased database data-fetching performance by 35% through MongoDB query optimization and aggregation pipelines. Strong knowledge of MERN Stack, REST API development, JWT authentication, authorization, RBAC, Socket.IO, database design, responsive UI development, API integration, Git, Agile, SDLC, debugging, and performance optimization.

## Technical Skills

- Programming Languages: JavaScript (ES6+), TypeScript, Java, C
- Frontend Development: React.js, Vue.js, HTML5, CSS3, Responsive Web Design, SPA, React Hooks, Context API, Redux, Axios, Component-Based Architecture
- Backend Development: Node.js, Express.js, REST APIs, RESTful Web Services, API Development, API Integration, MVC Architecture, CRUD Operations, JWT, Authentication, Authorization, RBAC, Socket.IO, Input Validation, Error Handling
- Databases: MongoDB, MySQL, Database Design, Data Modeling, MongoDB Aggregation, Query Optimization, Database Optimization, Indexing
- Cloud & Services: AWS S3, Cloudinary, Firebase, Vercel, Third-Party API Integration
- AI & Automation: OpenAI API, Groq API, Prompt Engineering, Playwright, Browser Automation, Web Scraping
- Tools & Practices: Git, GitHub, GitLab, Postman, VS Code, npm, SDLC, Agile, Scrum, Debugging, Performance Optimization, DSA

## Professional Experience

### Agami Technology

Full Stack Developer

Jan 2024 – Mar 2026  
Noida, Uttar Pradesh, India

- Developed and maintained production-ready full-stack applications using React.js, Node.js, Express.js, MongoDB, MySQL, JavaScript, and REST APIs, supporting 2,000+ active users.
- Designed and delivered 25+ RESTful APIs for authentication, user management, messaging, notifications, CRUD operations, and business workflows using Node.js and Express.js.
- Implemented secure JWT authentication, authorization, and Role-Based Access Control (RBAC) to protect application resources and manage role-specific user access.
- Engineered real-time chat and messaging using Socket.IO for 1,500+ users, achieving sub-200ms message latency and responsive real-time communication.
- Optimized MongoDB queries, indexing, and aggregation pipelines, improving data-fetching performance by 35% and reducing average API response time by 40%.
- Developed real-time notification workflows that increased application interaction rate by 25% and improved user engagement across core application modules.
- Built reusable and responsive React.js components, dashboards, forms, tables, and CRUD interfaces using React Hooks, Context API, Axios, HTML5, and CSS3.
- Extended web application functionality to cross-platform mobile using Capacitor, contributing to a 40% increase in mobile adoption.
- Integrated React frontend applications with Node.js and Express.js backend services using asynchronous workflows, input validation, error handling, and secure data processing.

## Projects

### AI Job Hunter | React.js, Node.js, Express.js, MongoDB, Playwright, Groq API | GitHub

2026

- Built a full-stack AI-powered job search and application platform using 6 technologies: React.js, Node.js, Express.js, MongoDB, Playwright, and Groq API.
- Implemented AI-driven resume-to-job matching using Groq API to generate job match scores, identify matched and missing skills, create job summaries, and support application tracking.
- Automated browser-based job discovery and application workflows using Playwright with authenticated sessions, web scraping, duplicate prevention, validation, rate limiting, and error handling.

### SmartPost | React.js, Node.js, Express.js, MongoDB, Socket.IO | Live Demo | GitHub

2025

- Developed a full-stack social productivity platform using 5 core technologies: React.js, Node.js, Express.js, MongoDB, and Socket.IO.
- Implemented authentication, authorization, CRUD operations, user management, notifications, REST APIs, and real-time communication supporting 2,000+ active users.
- Engineered real-time messaging using Socket.IO for 1,500+ users, achieving sub-200ms message latency with reusable React components and modular backend services.

### Study Orbit | React.js, Node.js, Express.js, MongoDB, Razorpay, Cloudinary | Live Demo | GitHub

2025

- Built a MERN-based EdTech platform using 6 core technologies: React.js, Node.js, Express.js, MongoDB, Razorpay, and Cloudinary.
- Integrated 5+ application workflows including OTP verification, Razorpay payment processing, course management, user management, and CRUD operations.
- Developed REST APIs, database operations, input validation, responsive React.js interfaces, and Cloudinary-based media management for end-to-end application functionality.

## Education

### Rajkiya Engineering College Banda

Bachelor of Technology (B.Tech) in Information Technology | CGPA: 7.82

Jun 2023  
Banda, Uttar Pradesh, India

### Intermediate College Bhatawali Bazar

Higher Secondary Education (UP Board) | Percentage: 76.4%

May 2018  
Gorakhpur, Uttar Pradesh, India

## Certifications & Achievements

- Certifications: Frontend Developer (React), Node.js (Intermediate), SQL (Intermediate), JavaScript (Basic), Problem Solving – HackerRank.
- Achievements: 5-Star Java Badge on HackerRank; solved 500+ coding problems across LeetCode, HackerRank, and GeeksforGeeks; ranked 3rd in the Information Technology Department.
